

## **Applying Research Methodology to Everyday Life**

| . What is research methodology, and why is it important in everyday life?                    |
|--|
|  |
|  |
|  |
| . Can you think of a real-world problem that could be solved using research methodology? Des |

| Case Study Analysis   |
|---|
| Read the following case study:  |
| "A company wants to launch a new product and needs to determine the most effective way to reach its target audience. The company uses research methodology to design a study, collect data, and analyze the results." |
| 1. What research question do you think the company is trying to answer?   |
| 2. What methods do you think the company used to collect data?  |
|   |

| Group Discussion   |  |
|--|--|
| Divide into small groups and discuss the following questions:  |  |
| <ul><li>1. How can research methodology be used to solve real-world problems?</li><li>2. What are some potential limitations of using research methodology in everyday life?</li></ul> |  |
| Use this space to take notes and record your group's discussion.   |  |
|  |  |
|  |  |
|  |  |
|  |  |

| Research Question Design  |
|---|
| <ul> <li>Design a research question related to a real-world problem that interests you. Use the following template:</li> <li>What is the problem or issue?</li> <li>What is the research question?</li> </ul> |
| What methods would you use to collect data?   |
|   |

| Data Collection and Analysis   |                         |
|--|-------------------------|
| Imagine you are conducting a research study to answer your research question. What to collect data, and how would you analyze the results? | t methods would you use |
|  |                         |
|  |                         |
|  |                         |

| Research Ethics   |
|---|
| What are some ethical considerations that researchers must take into account when conducting a study? Can you think of a scenario where research ethics might be compromised? |
|   |
|   |
|   |

| Case Study Evalua      | tion  |
|------------------------|---|
| Evaluate the following | g case study:   |
|                        | ets a study on the impact of social media on mental health. The researcher collects of 100 participants and finds a significant correlation between social media use and sion." |
| 1. What are some       | potential limitations of this study?  |
|                        |   |
|                        |   |
|                        |   |
| 2. How could the       | researcher improve the study to make it more valid and reliable?  |
|                        |   |
|                        |   |
|                        |   |
|                        |   |

| Research Methodology in Everyday Life  |
|--|
| Can you think of a way to apply research methodology to your everyday life? Describe a scenario where you could use research methodology to make an informed decision. |
|  |

## Conclusion

Congratulations! You have completed the worksheet on applying research methodology to everyday life. Remember that research methodology is a powerful tool that can help you make informed decisions and solve real-world problems.

Keep practicing, and you will become a proficient researcher in no time!
