

Introduction to Nouns and Verbs

Read the following introduction and answer the questions that follow:

Nouns and verbs are the building blocks of language. Nouns refer to people, places, things, or ideas, while verbs express action or a state of being. Understanding the difference between nouns and verbs is essential for effective communication, reading comprehension, and writing skills.

1. What are the two main building blocks of language?

2. What is the main function of nouns in language?

3. What is the main function of verbs in language?

Understanding Nouns

Read the following information about nouns and complete the exercises:

A noun is a word that refers to a person, place, thing, or idea. There are different types of nouns, including:

- Proper nouns (names of specific people, places, etc.)
- Common nouns (general terms)
- Concrete nouns (things that can be touched)
- Abstract nouns (ideas or feelings)
- Collective nouns (groups of things)

Exercise 1: Identifying Nouns

Identify the nouns in the following sentences:

1. The dog is barking.

2. The city is crowded.

3. Happiness is a feeling.

Understanding Verbs

Read the following information about verbs and complete the exercises:

A verb is a word that expresses action or a state of being. Verbs can be action verbs (showing physical or mental action), linking verbs (connecting the subject to additional information), or helping verbs (used to form the tense, mood, or voice of another verb).

Exercise 2: Identifying Verbs

Identify the verbs in the following sentences:

1. She is running.

2. The teacher is writing.

3. The sun is shining.

Nouns and Verbs in Sentence Structure

Read the following information about nouns and verbs in sentence structure and complete the exercises:

Nouns and verbs work together in sentences to convey meaning. The subject (noun) performs or is associated with the action (verb).

Exercise 3: Building Sentences

Page 1-5

Use the following nouns and verbs to build simple sentences:

- Nouns: dog, city, book
