

# **Wings of Migration: Exploring Bird Migration Patterns**

# **Learning Objectives**

- Understand the fundamental patterns of bird migration
- · Identify key migratory routes and their significance
- Analyze environmental factors affecting bird migration
- Develop observation and data collection skills
- Create connections between wildlife behavior and environmental changes

Warm-Up Activity: Bird Migration Basics (15 minutes)
Think about what you know about bird migration and answer these questions:
1. What birds have you observed in different seasons?
2. Why do you think birds migrate?
3. What challenges might birds face during migration?

# Migration Mapping Exercise (25 minutes)

#### **Group Investigation:**

Using the provided world map, work in groups to:

- 1. Mark major migration routes with different colored lines
- 2. Identify key stopover points
- 3. Note important feeding grounds

[World Map Activity Space]

Bird Species	Migration Route	Distance	Key Stopover Points

\_\_\_\_\_

Environmental Factors Analysis (20 minutes)			
Investigate how different environmental factors affect	et bird migration:		
Weather Patterns	Geographic Features		
How do these weather conditions affect migration?	How do these features influence migration routes?		
Wind direction:	Mountains:		
Temperature:	Coastlines:		
Rainfall:	Deserts:		
• Ivalilian.	· Descris.		
Migration Challenge Simulation (30 minutes)			
Role-Playing Exercise:			
Your group represents a flock of migratory birds. Navigate through these challenges:			
Scenario 1: Weather Front			
You encounter a strong storm system. What decisions will you make?			

**Scenario 2: Food Shortage** 

**Scenario 3: Human Development** 

A crucial wetland has been developed into an urban area. What's your solution?

Your usual stopover point has limited food resources this year. How do you adapt?

# **Data Collection and Analysis (45 minutes)**

# **Bird Migration Tracking Project**

#### **Field Observations**

Date	Species	Count	Direction

#### **Weather Conditions**

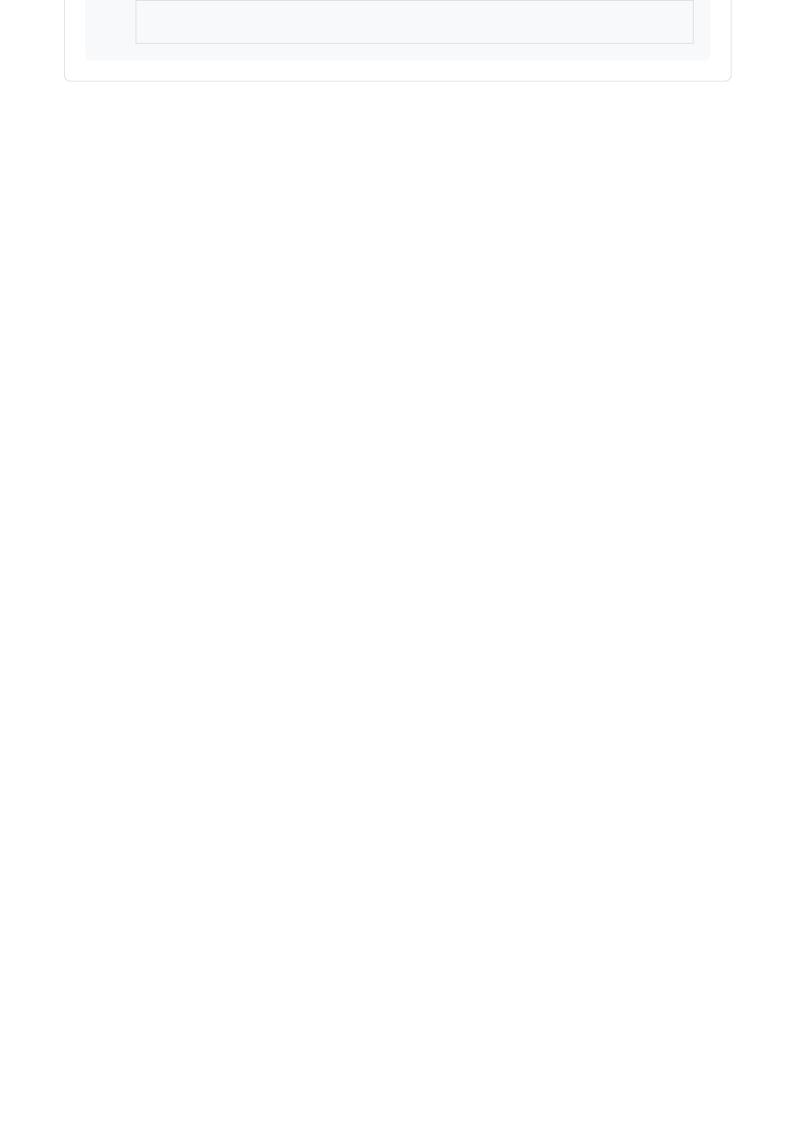

Temperature: \_\_\_\_\_°C
Wind Speed: \_\_\_\_\_km/h
Wind Direction: \_\_\_\_\_
Cloud Cover: \_\_\_\_\_%
Precipitation: \_\_\_\_\_ mm

# **Migration Technology Investigation (30 minutes)**

# **Modern Tracking Methods**

Tracking Method	Advantages	Limitations
Satellite Tracking		
GPS Loggers		
Radio Telemetry		

Current Challenges	Proposed Solutions
Habitat Loss	Habitat Protection
Impact:	Strategy:
Climate Change	International Cooperation
Impact:	Strategy:
Human Development	Public Education
Impact:	Strategy:
Study: Arctic Tern Migration (35 mi	inutes)
	inutes)
The Ultimate Migration Journey	inutes) e longest annual migration of any animal:
The Ultimate Migration Journey The Arctic Tern holds the record for the  • Annual Distance: approximately	e longest annual migration of any animal: 70,900 kilometers
The Ultimate Migration Journey The Arctic Tern holds the record for the	e longest annual migration of any animal: 70,900 kilometers
<ul> <li>Annual Distance: approximately</li> <li>Route: Arctic to Antarctic and back</li> </ul>	e longest annual migration of any animal: 70,900 kilometers
The Ultimate Migration Journey  The Arctic Tern holds the record for the  • Annual Distance: approximately  • Route: Arctic to Antarctic and bac  • Duration: 8-9 months of travel	e longest annual migration of any animal: 70,900 kilometers ck
The Ultimate Migration Journey  The Arctic Tern holds the record for the  • Annual Distance: approximately  • Route: Arctic to Antarctic and bac  • Duration: 8-9 months of travel  Answer the following questions:	e longest annual migration of any animal: 70,900 kilometers ck
The Ultimate Migration Journey  The Arctic Tern holds the record for the  • Annual Distance: approximately  • Route: Arctic to Antarctic and bac  • Duration: 8-9 months of travel  Answer the following questions:	e longest annual migration of any animal: 70,900 kilometers ck ns complete this journey?

# Final Project: Migration Documentary (60 minutes)

# **Create a Mini-Documentary**

#### **Production Guidelines**

- 1. Choose a migratory bird species
- 2. Research its migration pattern
- 3. Document challenges and adaptations
- 4. Include conservation efforts
- 5. Present findings to the class

# **Storyboard Planning**

Scene 1: Introduction

Scene 2: Migration Route

Scene 3: Challenges

#### **Assessment and Reflection**

Self-Assessment Questions	Learning Outcomes Checklist
What was the most surprising thing you learned about bird migration?	<ul> <li>□ I can explain why birds migrate</li> <li>□ I can identify major migration routes</li> <li>□ I understand migration challenges</li> </ul>
How has your understanding of migration changed?	□ I can describe conservation solutions
3. What more would you like to learn about this topic?	

# What Have We Learned? 1. Describe three key factors that influence bird migration patterns: 2. Explain how climate change might affect migration routes: 3. What conservation efforts could help protect migratory birds?

# **Extension Activities**

- Create a bird migration journal to track local species
- Design a bird-friendly garden plan
- Research and present on a specific migratory bird species
