Introduction to Digital Citizenship

Read the following definition and match the words to their definitions:

Digital citizenship refers to the responsible use of technology to interact with others, access information, and create content.

Term	Definition
Online safety	The practice of protecting oneself from harm or danger while using the internet.
Digital footprint	The collection of data and information that is left behind by an individual's online activities.
Cyberbullying	The act of using technology to harass, intimidate, or bully someone.

Online Safety Quiz

Complete the following quiz using Kahoot:

1. What should you do if someone sends you a mean message online?

2. How can you protect your personal information online?

3. What should you do if you encounter a suspicious link or download?

Productivity Tools

Explore a productivity tool (e.g., Trello, Todoist) with the guidance of a parent or guardian.

Write a short review of a productivity tool, discussing its features and potential uses.

Kahoot Quiz Creation

Create a simple Kahoot quiz on a topic related to digital citizenship.

Design a Kahoot quiz with multimedia elements (e.g., images, videos).

Padlet Collaboration

Contribute to a group Padlet board on digital citizenship.

Lead a small group in designing and implementing a Padlet board on a topic related to productivity.

Digital Citizenship Scenarios

Complete a set of digital citizenship scenarios, providing solutions and explanations for each.

1. What should you do if someone is being bullied online?

2. How should you handle a situation where someone is sharing false information online?

3. What should you do if you encounter a website with inappropriate content?

Productivity Plan Project

*Create a basic plan for how to use technology to improve productivity.*

Develop a detailed plan, including specific strategies for staying focused and avoiding distractions.

Digital Citizenship Reflection

Write a short reflection on what you learned about digital citizenship.

Create a visual project (e.g., infographic, comic strip) illustrating key principles of digital citizenship.

Review and Assessment

Complete a quiz on digital citizenship and productivity concepts using Kahoot.

Write a short essay on what you learned about digital citizenship and productivity.

Conclusion

Reflect on what you learned about digital citizenship and productivity.

Discuss the following questions in small groups:

1. What did you learn about digital citizenship and productivity?

2. How can you apply what you learned in your daily life?

3. What challenges do you think you might face in practicing digital citizenship and productivity?

Final Project

Create a final project that showcases your understanding of digital citizenship and productivity.

Use Kahoot and Padlet to present your findings.

Final Project

Create a final project that showcases your understanding of digital citizenship and productivity.

Use Kahoot and Padlet to present your findings.
