

Student Name: _____**Class:** _____**Due Date:** _____

Introduction

Welcome to the Basic Addition Fun homework assignment, designed for children aged 5-6 years. This worksheet is intended to reinforce the concept of basic addition within the range of 1-10, aligning with the learning objectives of recognizing and writing numbers, understanding the concept of addition, and applying basic addition facts to solve problems.

Section 1: Basic Addition Questions

Complete the following addition problems:

1. $2 + 1 = \underline{\quad}$

2. $5 + 0 = \underline{\quad}$

3. $1 + 4 = \underline{\quad}$

4. $3 + 2 = \underline{\quad}$

5. $0 + 6 = \underline{\quad}$

6. $1 + 1 = \underline{\quad}$

7. $2 + 2 = \underline{\quad}$

8. $4 + 1 = \underline{\quad}$

9. $3 + 1 = \underline{\quad}$

10. $1 + 3 = \underline{\quad}$

Section 2: Picture Addition

Look at the pictures and use addition to solve the problems:

1. If I have 3 pencils and I get 2 more, how many pencils do I have now? _____  3 pencils +  2 pencils
2. If there are 5 birds in a tree and 1 more bird comes, how many birds are in the tree now? _____  5 birds +  1 bird
3. If I have 2 blocks and I get 1 more block, how many blocks do I have now? _____  2 blocks +  1 block
4. If there are 4 toys in a box and 2 more toys are added, how many toys are in the box now? _____  4 toys +  2 toys

Section 3: Word Problems

Read each story and use addition to find the answer:

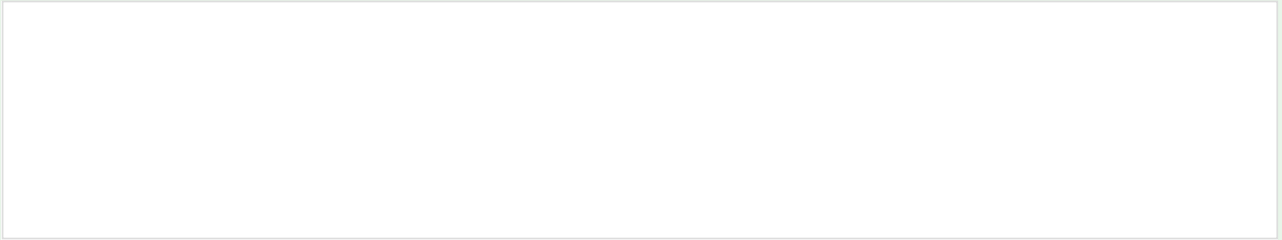

1. Tom has 4 toy cars. His friend gives him 1 more toy car. How many toy cars does Tom have now?

2. Sarah has 2 books in her bag. She finds 3 more books under her bed. How many books does Sarah have now? _____
3. Emily has 5 pencils in her pencil case. She gets 2 more pencils from her teacher. How many pencils does Emily have now? _____
4. Ben has 1 ball. His friend gives him 2 more balls. How many balls does Ben have now? _____

Extension Activities

For those who want a challenge:

1. Create Your Own Addition Problems: Draw a picture that represents an addition problem (e.g., 2 groups of objects being combined) and write the math problem and its solution.
2. Addition Story: Write a short story that includes at least 3 addition problems. Solve the problems within your story.

A large, empty rectangular box with a thin black border, intended for a student to draw a picture or write a story as part of the extension activities.

Success Criteria

To successfully complete this homework:

- Answer at least 80% of the basic addition questions correctly.
- Solve the picture addition and word problems correctly.
- If you chose to do the extension activities, ensure your problems are correct and your story is engaging and includes accurate addition solutions.

Conclusion

Congratulations on completing the Basic Addition Fun homework assignment! Remember to review your work and ask for help if you need it. Keep practicing your addition skills to become a math superstar!
