

Introduction to Geography

Welcome to the world of geography! Geography is the study of the Earth's physical features, human populations, and the ways in which people interact with the environment. In this welcome pack, we will explore the basics of geography and have some fun along the way!

Activity 1: Geography Scavenger Hunt

Find the following geographical features in your neighborhood or community:

1. A mountain or hill
2. A river or stream
3. A park or forest
4. A city or town

Understanding Maps

A map is a two-dimensional representation of the Earth's surface. Maps can be used to show the location of different places, such as countries, cities, and landmarks.

Activity 2: Map Reading

Look at the map below and answer the following questions:

1. What is the name of the continent in the center of the map?

2. What is the name of the ocean to the west of the continent?

3. What is the name of the country in the northwest corner of the map?

Exploring Continents and Oceans

There are seven continents and five oceans on our planet. Let's learn about each of them!

Activity 3: Continent Match

Match the continent with its corresponding description:

Continent	Description
Africa	_____
Asia	_____
Europe	_____
North America	_____
South America	_____
Australia	_____
Antarctica	_____

Geographical Landmarks

Geographical landmarks are notable features on the Earth's surface, such as mountains, rivers, and deserts.

Activity 4: Landmark Sorting

Sort the following landmarks into their corresponding categories:

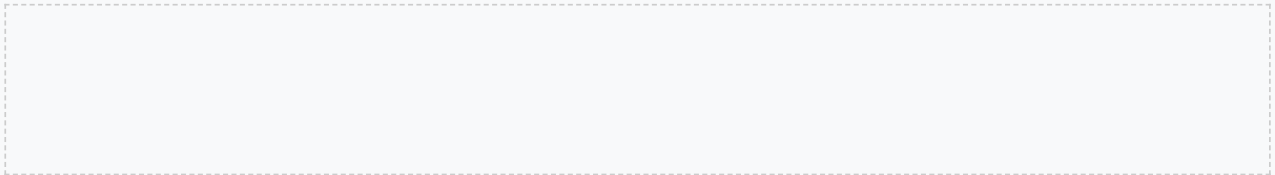

Landmark	Category
Mount Everest	_____
Nile River	_____
Sahara Desert	_____
New York City	_____

Map Skills and Navigation

Map skills are essential for navigation and understanding the world around us.

Activity 5: Navigation

Use the map below to navigate from point A to point B. What is the shortest route?

Fun Activities and Quizzes

Test your knowledge with our geography quiz!

1. What is the largest continent on Earth?

2. What is the deepest ocean on Earth?

3. What is the highest mountain peak in the world?

Conclusion

Congratulations on completing our welcome pack! We hope you had fun exploring the world of geography.

Glossary

Here are some key terms to remember:

- Continent: a large area of land that is separated by oceans
- Ocean: a vast body of saltwater that covers a significant portion of the Earth's surface
- Map: a two-dimensional representation of the Earth's surface
- Navigation: the process of planning and controlling a route

Answer Key

Here are the answers to the activities:

1. Activity 1: Answers will vary
2. Activity 2: Answers will vary
3. Activity 3:
 - Africa: the continent where the Sahara Desert is located
 - Asia: the largest continent on Earth
 - Europe: the continent where the Eiffel Tower is located
 - North America: the continent where the Grand Canyon is located
 - South America: the continent where the Amazon Rainforest is located
 - Australia: the continent where the Great Barrier Reef is located
 - Antarctica: the coldest continent on Earth
4. Activity 4:
 - Mountain: Mount Everest
 - River: Nile River
 - Desert: Sahara Desert
 - City: New York City
5. Activity 5: Answers will vary
6. Quiz:
 - What is the largest continent on Earth? Asia
 - What is the deepest ocean on Earth? Pacific Ocean
 - What is the highest mountain peak in the world? Mount Everest

Certificate of Completion

Congratulations on completing our welcome pack! You are now a geography beginner!
