Digital Citizenship Assessment Worksheet

Introduction

As a responsible digital citizen, it is essential to understand the basics of online safety, etiquette, and critical thinking. This worksheet is designed to assess your knowledge and skills in these areas. Please complete the activities and questions to the best of your ability.

## Section 1: Foundation Level (Grade 6-7)

Multiple Choice Questions:

1. What is digital citizenship?
   a) The ability to use technology to communicate with others
   b) The practice of being safe and responsible online
   c) The use of social media to share personal information
   d) The ability to create and share content online

2. Why is it important to use strong passwords online?
   a) To protect your personal information from hackers
   b) To make it easier to remember your login credentials
   c) To share your password with friends and family
   d) To use the same password for all online accounts

Short Answer Questions:

1. Describe a situation where you had to make a decision about online safety. What did you do?

2. What are some ways to protect your personal information online?

Section 2: Core Level (Grade 8-9)

Short Answer Questions:

1. Explain the concept of online etiquette and provide examples of how to demonstrate it.

2. Describe a time when you had to evaluate the credibility of an online source. What criteria did you use?

Project-Based Task:

Create a public service announcement (PSA) about online safety and digital citizenship. Include at least three key concepts and provide a clear call to action.

[Space for creative work]

Section 3: Extension Level (Grade 10-12)

Essay Question:

Discuss the impact of social media on digital citizenship. How can individuals use social media responsibly and promote positive online behaviors?

Project-Based Task:

Design and create a website or blog that promotes digital citizenship and online safety. Include at least five key concepts and provide resources for further learning.

[Space for creative work]

Section 3: Extension Level (Grade 10-12)

Essay Question:

Differentiation Options

For visual learners: Use diagrams and infographics to support understanding of digital citizenship concepts.

For auditory learners: Listen to audio recordings or podcasts that explain digital citizenship concepts.

For kinesthetic learners: Create a poster or infographic to support understanding of digital citizenship concepts.

For English language learners: Use bilingual resources and support, such as dictionaries and translation software.

For students with disabilities: Use text-to-speech software or a scribe to support completion of the worksheet.

Assessment Rubric

Foundation Level: Multiple choice questions (1 point each), short answer questions (2 points each)

Core Level: Short answer questions (3 points each), project-based task (10 points)

Extension Level: Essay question (15 points), project-based task (20 points)

Conclusion

Thank you for completing this digital citizenship assessment worksheet. Remember to always practice safe and responsible online behaviors, and to promote positive online interactions with others.
