Reading Comprehension (15 minutes)

Read the following text carefully and answer the questions below:

The World of Roblox

Roblox is an exciting online gaming platform that has captured the imagination of millions of young players worldwide. Created in 2006, it offers a unique space where creativity meets entertainment. Players use customizable avatars to explore countless virtual worlds, each offering different adventures and experiences.

What makes Roblox special is its focus on user-created content. Using Roblox Studio, players can become developers, designing their own games and sharing them with a global community. Popular games include "Adopt Me!" where players raise virtual pets, and "Brookhaven," a role-playing world where players can experience different careers and lifestyles.

1. When was Roblox created?

2. What tool do players use to create their own games?

3. Name two popular games mentioned in the text.
