Dinosaurs lived in different habitats, such as deserts, forests, and plains. They ate different foods, such as fruits, leaves, and seeds.

Habitat	Diet
Desert	_____
Forest	_____
Plains	_____

### Fun Activities and Quizzes (15 minutes)

---

*Complete the following quiz:*

1. What was the largest dinosaur?

2. Which dinosaur had a crest on its head?

## Dinosaur Word Search (10 minutes)

---

*Find the following dinosaur names in the word search:*

Tyrannosaurus Rex, Stegosaurus, Diplodocus, Velociraptor

[Word search puzzle]

## Conclusion (10 minutes)

---

*Read the following text and answer the questions:*

In conclusion, dinosaurs were fascinating creatures that came in all shapes and sizes. They lived in different habitats and ate different foods. By learning about dinosaurs, we can gain a better understanding of the natural world and the history of our planet.

1. What can we learn from studying dinosaurs?

2. Why are dinosaurs important?

### Assessment (15 minutes)

---

Complete the following assessment:

1. What is the difference between a herbivore and a carnivore?

2. What was the largest dinosaur?

3. Draw a picture of your favorite dinosaur and label its unique features.

[Space for drawing]

### Extension Activity (15 minutes)

---

Create a diorama of a dinosaur habitat using a shoe box or a cardboard box. Include plants, rocks, and a dinosaur model. Write a short paragraph about the dinosaur and its habitat.

[Space for diorama description]
