

Subject Area: Biology/Science
Unit Title: Human Evolution
Grade Level: 9th Grade (14-15 years)
Lesson Number: 1 of 5

Duration: 90 minutes
Language: Spanish
Required Materials: PowerPoint, Timeline Cards, Evolution Models
Technology: Projector, Computer

Learning Objectives

Content Objectives:

- Explain the basic principles of human evolution
- Identify key stages in human evolutionary history
- Describe the timeline of human evolution
- Compare different hominin species

Language Objectives:

- Use scientific vocabulary related to evolution in Spanish
- Explain evolutionary concepts using academic language
- Engage in scientific discussions about human origins

Key Vocabulary

Scientific Terms:

- Evolución (Evolution)
- Selección natural (Natural selection)
- Homínido (Hominid)
- Bipedismo (Bipedalism)
- Fósil (Fossil)

Academic Language:

- Adaptación (Adaptation)
- Evidencia (Evidence)
- Ancestro común (Common ancestor)
- Especie (Species)
- Mutación (Mutation)
