

## Welcome to Exploring Fun and Educational Websites for Kids!

*This workbook is designed to help you develop your digital literacy skills and have fun while learning. You will explore exciting educational websites, play interactive games, and complete activities that will make you a superstar in the digital world!*

## Introduction to Digital Literacy

*Digital literacy is the ability to use technology to find, evaluate, and create information. It's an essential skill for everyone, and we're excited to help you get started!*

1. What do you think digital literacy means?

2. Can you think of a time when you used technology to learn something new?

3. Draw a picture of your favorite device (e.g., tablet, computer, smartphone) and write one thing you like to do on it.

## Online Safety

*Staying safe online is crucial. Remember to always ask a grown-up for permission before going online, and never share your personal information with strangers.*

1. What are some online safety rules you should follow?

2. Why is it important to ask a grown-up for permission before going online?

3. Create a poster with online safety tips for your friends and family.

## Exploring Educational Websites

*Let's explore some fun and educational websites! We'll learn about science, math, reading, and more.*

1. Visit [National Geographic Kids](#) and find the section on animals.

2. What did you learn about your favorite animal?

3. Write a short paragraph about what you learned.

## Digital Citizenship

*Being a good digital citizen means being kind and respectful online. We should always think before we post or share something.*

1. What does it mean to be a good digital citizen?

2. Can you think of a time when you saw someone being kind online?

3. Write a short story about a character who is a good digital citizen.

## Evaluating Online Information

*Not everything online is true! We need to evaluate information to make sure it's credible and trustworthy.*

1. What are some ways to evaluate online information?

2. Can you think of a time when you saw fake news online?

3. Create a checklist for evaluating online information.

## Creating Digital Content

*Let's create some digital content! We'll learn about writing, drawing, and making videos.*

1. Write a short story about your favorite topic.

2. Draw a picture to illustrate your story.

3. Create a short video about your story.

## Online Collaboration

*We can work together online to achieve great things! Let's learn about collaboration tools and how to work together.*

1. What are some online collaboration tools?

2. Can you think of a time when you worked with someone online?

3. Create a group project using an online collaboration tool.

## Review and Reflection

---

*Let's review what we've learned! Reflect on your favorite activities and what you're proud of.*

1. What was your favorite activity?

2. What did you learn about digital literacy?

3. Write a reflection about your experience.

## Additional Resources

---

*Here are some additional resources to help you continue learning about digital literacy:*

- [Common Sense Education](#)
- [Code.org](#)
- [Khan Academy](#)

## Certificate of Completion

---

*Congratulations! You've completed the Exploring Fun and Educational Websites for Kids workbook!*

### **Certificate of Completion**

I, [insert name], have completed the Exploring Fun and Educational Websites for Kids workbook and am now a digital literacy superstar!
