Introduction to Colors

Colors are all around us, and they play a significant role in our lives. They can affect our mood, help us express ourselves, and make the world a more beautiful place. In this worksheet, we will explore the world of colors and patterns.

What are some of your favorite colors? Why do you like them?

Primary and Secondary Colors

Primary colors are colors that cannot be made by mixing other colors together. They are:

- Red
- Blue
- Yellow

Secondary colors are colors made by mixing two primary colors together. They are:

- Green (made by mixing blue and yellow)
- Orange (made by mixing red and yellow)
- Purple (made by mixing blue and red)

What are the primary colors? What are the secondary colors?

Recognizing Patterns

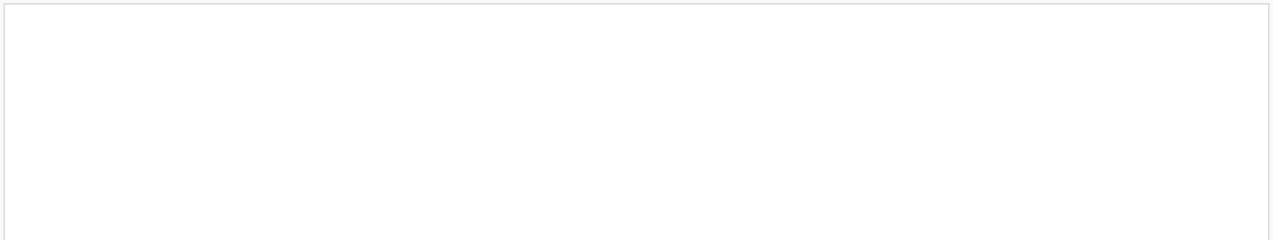

Patterns are sequences of colors, shapes, or objects that repeat in a specific order. Can you recognize the following patterns?

- Stripes: red, white, red, white
- Polka dots: red, white, red, white
- Chevrons: blue, yellow, blue, yellow

Can you think of other patterns you see in your daily life?

Now it's your turn to create your own patterns! Use the following shapes and colors to create a pattern:

- Red square
- Blue circle
- Yellow triangle

1. Color the following picture using primary and secondary colors.

 Picture to color

2. Create a pattern using the shapes and colors provided.

3. Find and identify patterns in your surroundings.

1. What are the three primary colors?

- a. Red, blue, and green
- b. Red, blue, and yellow
- c. Red, green, and purple

2. What color do you get when you mix blue and yellow?

- a. Green
- b. Orange
- c. Purple

3. What is the pattern called when you have rows of alternating colors?

- a. Stripes
- b. Polka dots
- c. Chevrons

Conclusion

Congratulations on completing the "All Things Bright and Beautiful" worksheet! You have learned about primary and secondary colors, recognized and created patterns, and had fun with color and pattern activities.

Primary colors: colors that cannot be made by mixing other colors together

Secondary colors: colors made by mixing two primary colors together

Pattern: a sequence of colors, shapes, or objects that repeat in a specific order

Answer Key

1. b) Red, blue, and yellow
2. a) Green
3. a) Stripes

Certificate of Completion

Congratulations on completing the "All Things Bright and Beautiful" worksheet! You have demonstrated your understanding of colors and patterns.
