

Introduction

Welcome to this comprehensive guide on forming present simple sentences with regular and irregular verbs! As a 14-year-old student, you are about to embark on an exciting journey to master the fundamentals of the English language. In this guide, we will explore the rules and exceptions of forming present simple sentences, and provide you with engaging activities and exercises to practice your skills.

What are Regular and Irregular Verbs?

Regular verbs are verbs that follow a predictable pattern when forming the present simple tense. For example, the verb "walk" becomes "walks" in the third person singular (he, she, it). Irregular verbs, on the other hand, do not follow this pattern and must be memorized. For example, the verb "go" becomes "goes" in the third person singular.

Forming Present Simple Sentences with Regular Verbs

To form a present simple sentence with a regular verb, you need to add -s or -es to the base form of the verb. For example:

- I walk to school (singular subject)
- He walks to school (singular subject)
- They walk to school (plural subject)

Forming Present Simple Sentences with Irregular Verbs

Irregular verbs have unique forms that do not follow the usual pattern of adding -s or -es. For example:

- I go to the park (singular subject)
- He goes to the park (singular subject)
- They go to the park (plural subject)
