

Welcome to Creating Your Own Prometheus-Inspired Story

*In this interactive and engaging lesson, we will explore the classic novel *Frankenstein* and its themes of science, ethics, and responsibility. Through a series of activities and questions, you will learn to analyze literary texts, think critically about scientific ethics, and create your own Prometheus-inspired story.*

Introduction to the Prometheus Myth

*Read the Prometheus myth and summarize its key elements in your own words. Discuss with a partner or in a small group how the myth relates to the themes and motifs present in *Frankenstein*.*

1. What is the Prometheus myth, and how does it relate to Mary Shelley's *Frankenstein*?
2. How does the myth of Prometheus influence the themes and motifs present in *Frankenstein*?
3. What are the key elements of the Prometheus myth, and how do they appear in the novel?

Analyzing Frankenstein

Read a selected passage from Frankenstein and analyze its use of literary devices. Discuss with a partner or in a small group the significance of Victor Frankenstein's character and his relation to the Prometheus myth.

1. What are the main themes present in Frankenstein, and how do they relate to the Prometheus myth?
2. How does Mary Shelley use literary devices such as imagery and symbolism in Frankenstein?
3. What is the significance of the character of Victor Frankenstein, and how does he relate to the Prometheus myth?

Creative Writing

Write a short story inspired by the Prometheus myth and the themes of Frankenstein. Share your story with a partner or in a small group and discuss its relation to the novel and its themes.

Science and Ethics

Research and discuss the scientific concepts and theories that underpin the novel Frankenstein. Debate with a partner or in a small group the ethics of scientific discovery and the responsible use of science and technology.

1. What are the scientific concepts and theories that underpin the novel Frankenstein?
2. How does the novel explore the ethics of scientific discovery and the responsible use of science and technology?
3. What are the implications of the novel for contemporary issues in science and technology?

Character Analysis

Analyze the character of the monster in Frankenstein and its relation to the Prometheus myth and the themes of the novel. Discuss with a partner or in a small group the significance of the monster and its implications for contemporary issues.

1. What is the significance of the character of the monster in Frankenstein?
2. How does the monster relate to the Prometheus myth and the themes of the novel?
3. What does the monster represent in the novel, and what are its implications for contemporary issues?

Creative Expression

Create a visual project that represents the intersection of science, ethics, and literature in Frankenstein. Share your project with a partner or in a small group and discuss its relation to the novel and its themes.

Reflection and Evaluation

Reflect on what you learned from this lesson and how it relates to your prior knowledge and understanding. Evaluate the effectiveness of the activities and questions in this lesson and provide feedback for future improvements.

1. What did you learn from this lesson, and how did it relate to your prior knowledge and understanding?
2. How did the activities and questions in this lesson help you to think critically and creatively about the themes and motifs present in Frankenstein?
3. What would you like to learn more about in future lessons, and how can you apply what you learned in this lesson to your own life and interests?

Extension Activity

Choose one of the extension activities and complete it. Share your work with a partner or in a small group and discuss its relation to the novel and its themes.

1. Write a script for a film adaptation of Frankenstein, using the novel as a guide.
2. Create a graphic novel or comic strip inspired by the Prometheus myth and the themes of Frankenstein.
3. Research and present on a contemporary issue in science and technology, using the novel as a case study.

Assessment

Complete a self-assessment of your learning and understanding. Provide feedback on the effectiveness of the lesson and suggest improvements for future lessons.

1. What did you learn from this lesson, and how did it relate to your prior knowledge and understanding?
2. How did the activities and questions in this lesson help you to think critically and creatively about the themes and motifs present in Frankenstein?
3. What would you like to learn more about in future lessons, and how can you apply what you learned in this lesson to your own life and interests?

Conclusion

Reflect on what you learned from this lesson and how it relates to your prior knowledge and understanding. Discuss with a partner or in a small group how you can apply what you learned in this lesson to your own life and interests.

Final Thoughts

Congratulations on completing this interactive and engaging lesson! You have learned to analyze literary texts, think critically about scientific ethics, and create your own Prometheus-inspired story. Remember to apply what you learned in this lesson to your own life and interests, and to continue exploring the intersection of science, ethics, and literature.

Glossary of Terms

Define the following terms and explain their significance in the context of Frankenstein:

1. Prometheus myth
2. Science and ethics
3. Literary devices
4. Character analysis

Bibliography

List the sources you used to research the scientific concepts and theories that underpin the novel Frankenstein:

Appendix

Include any additional materials that may be helpful for future reference, such as:

1. Timeline of major events in the novel
2. Character map
3. Themes and motifs

Index

Create an index of key terms and concepts from the lesson:

Teacher Notes

Provide guidance for teachers on how to implement the lesson and assess student learning:

1. Introduction to the lesson
2. Activity instructions
3. Assessment criteria

Student Feedback

Provide a space for students to offer feedback on the lesson and suggest improvements:

Conclusion

Congratulations on completing this interactive and engaging lesson! You have learned to analyze literary texts, think critically about scientific ethics, and create your own Prometheus-inspired story. Remember to apply what you learned in this lesson to your own life and interests, and to continue exploring the intersection of science, ethics, and literature.
