Introduction to France's Geography

Welcome to this exciting homework assignment, where you will embark on a journey to discover the fascinating geographical features of France. This worksheet is designed to support your learning objectives in Social Studies, focusing on identifying and describing the basic geographical features of France, including mountains, rivers, and major cities.

Obtain a blank map of France and label the following geographical features:

- Major mountains (e.g., the Alps, the Pyrenees)
- Significant rivers (e.g., the Seine, the Rhone)
- Major cities (e.g., Paris, Lyon, Marseille)

Include at least five additional geographical features of your choice (e.g., lakes, islands, borders with other countries).

Choose three geographical features from your map (one mountain, one river, and one city) and write a short description of each. Include the following details:

- Location
- Size/Length
- Importance (e.g., economic, cultural, historical)

Example:

- Mountain: The Alps
 - Location: Southeastern France
 - Size/Length: Approximately 1,200 km long
 - Importance: Popular tourist destination, source of hydroelectric power
- River: The Seine
 - Location: Flows through Paris and into the English Channel
 - Size/Length: Approximately 777 km long
 - Importance: Major transportation route, source of water and food
- City: Paris
 - Location: Northern France
 - Size/Length: Approximately 1,054 km²
 - Importance: Capital city, cultural and economic center

Express your understanding of France's geography through a creative medium of your choice (e.g., drawing, painting, poem, short story). Ensure your creation includes at least three geographical features of France and reflects your learning from this assignment.

Compare and contrast the geographical features of France with those of another country (e.g., the United States, Canada, Australia). Focus on similarities and differences in mountain ranges, river systems, and urban landscapes.

Select a specific region in France (e.g., Normandy, Provence) and conduct a detailed case study of its geographical features, including how these features impact the local economy, culture, and daily life. Use a variety of sources, including books, articles, and documentaries, to gather comprehensive information.

Test your knowledge of France's geographical features with the following questions:

1. What is the largest mountain range in France?

- a) The Alps
- b) The Pyrenees
- c) The Carpathian Mountains

2. Which river flows through the city of Paris?

- a) The Seine
- b) The Rhone
- c) The Loire

3. What is the capital city of France?

- a) Paris
- b) Lyon
- c) Marseille

Reflect on what you have learned about France's geographical features. Ask yourself:

- What did I learn about France's mountains, rivers, and cities?
- How do these features impact the local economy, culture, and daily life?
- What would I like to learn more about?

Provide feedback to your teacher on your experience with this assignment.

Congratulations on completing this homework assignment! You have gained a comprehensive understanding of France's geographical features and developed essential skills in research, mapping, and creative expression. Remember to always keep exploring and learning about our amazing world!
